Bottling	July
Alcohol	13,5 % by Vol

**GRUB** - Ried (single vineyard, cru) Grub is a basin between Ried Heiligenstein an Ried Gaisberg. Slightly higher and more wind protected than Grub and Lamm, the site opens to the south. 20.000 years ago - during the last glacial period - mammoth and reindeer hunters used it as a settling place. The soil consists of pure loess as well as the remains of bones from the stone age period.

**Description:** Multifaceted, but discreet, full greengage fruit and a hint of blood orange, but also moving in the direction of a Burgundy; spicy tobacco and delicate depth, concentrated and offering many details, chocolatey and long, really coats the mouth, extremely promising.

**SCHLOSS GOBELSBURG**, a Cistercian monastic estate, is one of the oldest wineries in the Austrian Danube area with a documented history that dates back to 1171. All the vineyards are located on slopes and terraces around the valley of the river Kamp near the town of Langenlois and the village of Gobelsburg. Schloss Gobelsburg specialises in Grüner Veltliner and Riesling and produces authentic and noble wines from different single vineyard, village and regional appellations. The winery is member of the association 'Österreichische Traditionsweingüter', which is working on a vineyard classification project for the Danube area.

(1) Ried is the typical Austrian nomination of a single vineyard (cru)
